

A PUBLIC NOTICE FROM ALABAMA POWER

TREE CREWS WORKING IN VESTAVIA HILLS THROUGH SPRING 2021

Alabama Power crews are working in several Vestavia Hills neighborhoods, removing trees and other vegetation that threaten the safety and reliability of our electrical system.

As part of this process, Alabama Power goes to great lengths to talk with individual property owners. Company representatives are going door to door, leaving notices at locations where work is needed.

If you have any questions before crews come by your home, please call Alabama Power at 205-257-2155 and ask for someone in the Vegetation Management Group to contact you. Or you can email us at apcvm@southernco.com. Work in Vestavia and nearby areas is expected to continue through early 2021.

As we work in communities to meet the needs of our customers, please maintain a safe social distance of six feet from our crews and field representatives to help prevent the spread of the coronavirus.

Also, you can visit alpwr.co/vm for more information about these safety and reliability measures and for recommendations about planting the right tree in the right place.

Thank you for your understanding.

Vegetation Management Group
